An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: At page 5, before line 3, insert -Brief Description of the Drawing--.

The drawings filed on 12 October 2001 are acceptable subject to correction of the informalities: the drawing should be identified as "Figure" rather than "Figure. Unique". In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

The following is an examiner's statement of reasons for allowance: The declaration filed under rule 132 provides evidence, not contradicted in the record, that "milling", as known in this art, inherently produces the flakes recited in the instant claims, and the simple "chopping" of the reference, as known in this art, does not.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
